

## AXPM

### AXPM One

Built from the ground up to be used on any device in the cloud, AXPM One practice management software is designed to generate more starts and happier patients and staff, and to streamline collections and communication.

Never-before-seen features such as wireless imaging, two-way text messaging, built-in phone system, case closer technology and an interactive patient portal will help users scale and grow their practice. Patients can fill out health history and even schedule new patient exams from the secure interactive portal.

For more information, visit [axpm.com](http://axpm.com) or call 844-488-2976.

## Product Showcase

More than 350 companies made the trek to exhibit at the 117th American Association of Orthodontics Annual Session in sunny San Diego. In case you didn't get to see some of the new products at the show, here's a recap of some of the most eye-catching items promoted during the session.

## Carestream Dental

### CS 3600

With the CS 3600 intraoral scanner, users can acquire scans quickly and easily. Its high-speed, continuous scanning allows the CS 3600 to scan in a smooth, uninterrupted manner. The Intelligent Matching System lets users easily go back and fill in any missing information in the data set. For capturing hard-to-reach areas, two rounded interchangeable tips—normal and side-oriented—come standard with the scanner. Plus, full HD 3-D color digital impressions provide more vivid color and texture for better communication with labs, patients and referrals.

For more information, visit [carestreamdental.com](http://carestreamdental.com) or call 800-944-6365.

## Dentsply Sirona Orthodontics

### In-Ovation X

In-Ovation X, a new self-ligating bracket system, is the latest addition to the In-Ovation line. Building on the well-known In-Ovation platform, the design of the new system unites significant input from the orthodontic community with the disciplined approach of six sigma product design development, evaluation, analysis and revision. The streamlined shape and reduced profile are designed to provide a better experience for the patient and the clinician. The occlusal footprint has been reduced without sacrificing any interactivity. Plus, a redesigned encased clip mechanism and closed gingival bracket base have been incorporated to mitigate calculus accumulation that can interfere with clip function.

For more information, visit [dentsplysirona.com](http://dentsplysirona.com).

## Dolphin Imaging & Management Solutions

Dolphin added pediatric features and tools to its Management, Imaging and

Aquarium products. With **Dolphin Management Specialty-Pedo** the user can manage scheduling and patient treatment for pedo and ortho in one place, utilize distinct ledgers and billing and effectively track and market to patients of each specialty. **Dolphin Imaging** has added Magnify and Spotlight toolbar tools and pediatric/dental FMX layouts. And **Aquarium** has a new pediatric library containing 28 pedo-specific patient education movies. New content is added every two months.

These products are joined by a full suite of complementary software and services for ortho-pedo practices that includes mobile and cloud options. For more information, call 818-435-1368 or visit [dolphinspedo.com/newkidot](http://dolphinspedo.com/newkidot).

## DynaFlex Atlas Mini

Orthodontists and their staffs can rely on the Atlas Mini bracket. The strength and tremendous durability of the Atlas Mini comes from the combined manufacturing of extremely strong stainless steel and the precise brazing technique to add the foil mesh pad. Features include: 17-4 stainless steel, 80-gauge foil mesh pad, silky-smooth slot and low profile design. The Atlas Mini is now available in light gold with an exclusive coating process that leaves a brilliant finish, eliminating the risk of abrasion or peeling off.

For more information, call 866-346-5665 or visit [dynaflex.com](http://dynaflex.com).

## DynaFlex CS3 System

The CS3 system is one of the most successful Class II and Class III chairside appliances because of its simplicity, effectiveness and ease of use. The new CS3 is made from an exclusive nickel titanium material that loads force instantly and remains consistent throughout treatment. The benefit is a smoother, more constant force that performs better and lasts longer.

For more information, call 866-346-5665 or visit [dynaflex.com](http://dynaflex.com).

## DEFEND<sup>®</sup> invisible retainers

## DynaFlex Defend

Defend patients' smiles from relapse using Defend invisible retainers. Orthodontists can give patients peace of mind with Defend, a comfortable and durable solution to lost or broken retainers. This cost-effective system provides multiple sets of retainers to maintain the ideal position.

For more information, call 800-489-4020 or visit [dynaflex.com](http://dynaflex.com).

## OC Orthodontics

### H4

OC Orthodontics never stops innovating to bring its customers the best. H4 was designed to give an enhanced door and exceptional bond strength. H4 has the tightest tolerances in the industry providing better control to deliver beautiful smiles up to four months faster, so orthodontists can finish with the best.

For more information, call 866-752-0065 or visit [oc-orthodontics.com](http://oc-orthodontics.com).

## OC Orthodontics

### Pitts 21 Self-Ligating Bracket

Pitts 21 is a revolutionary new orthodontic system that delivers 3-D control for fast and more precise finishes. Developed with Dr. Tom Pitts, a world-renowned clinical orthodontist who is known for aesthetic finishes, Pitts 21 improves early control of torque, tip and rotation. With control this precise, most cases finish in four wires or less because of the efficient tooth movement. Pitts 21 provides remarkable patient comfort because of a system of light-continuous forces throughout all phases of treatment.

For more information, call 866-752-0065 or visit [oc-orthodontics.com](http://oc-orthodontics.com).

## Ortho2

### Edge

Ortho2 Edge delivers premium practice management, imaging, and communication solutions—all supported by its top-notch customer service team. Edge is the only practice management system to feature truly optimized, private cloud computing. Edge offers all the services and features needed to run a more effective and efficient practice: management, imaging, reminders, education animations, morphing, cephalometric tracing, mobile apps and more. Ortho2 is the largest independently owned provider of orthodontic practice management software and services.

For more information, visit [ortho2.com](http://ortho2.com) or call 800-678-4644.

## Ortho2

### Edge Specialist

Edge Specialist, a new module available with Ortho2's Edge, will allow orthodontists to use both orthodontic and pediatric dentistry in the same software. Edge Specialist can include patients in both orthodontic and pediatric dentistry treatment simultaneously, as well as two tooth charts to record both orthodontic and dental procedures. The module allows the user to easily bill multiple codes per appointment, and view the ledger by specialty. With Edge Specialist, orthodontists won't have to worry about having multiple programs for expanding the office.

For more information, visit [ortho2.com](http://ortho2.com) or call 800-678-4644.

## Ortho2 Edge Pop

With Edge Pop from Ortho2, the workday will become more efficient. This new feature, which will soon be free for Edge and ViewPoint users, allows the user to receive pop-ups when receiving phone calls from associated people such as patients, responsible parties, and professionals. Simply click these pop-ups to open their record. Edge Pop works with any VOIP system that supports SIP.

For more information, visit [ortho2.com](http://ortho2.com) or call 800-678-4644.

## OrthoFi

OrthoFi is a software and service solution designed to increase starts and streamline processes. The end-to-end flow streamlines onboarding, stimulates conversions, and takes on both insurance and patient processing and collection.

OrthoFi delivers dynamic growth, balanced cash flow and risk, and smoother operations with insightful metrics to help practices run their business. OrthoFi clients have seen average production growth of 14 percent over prior year, less than 1.7 percent insurance AR past due, and 0.7 percent on past-due collections.

For more information or to schedule a demo, visit [startmoresmiles.com](http://startmoresmiles.com).

## Propel Orthodontics

### VPro5 and Excellerator PT

Stay on track to success with Propel Orthodontics' in-office and at-home payment options. A manufacturer and worldwide seller of orthodontic devices, Propel provides in-office and at-home offerings for orthodontists and patients. The Excellerator Series Drivers, a line of advanced orthodontic devices, allows clinicians to perform quick in-office treatments during regularly scheduled visits. The VPro5, a vibratory device used to assist in properly seating clear aligners in just five minutes a day, allows patients to participate in treatment at home or on the go.

For more information, visit [propelorthodontics.com](http://propelorthodontics.com) or call 855-377-6735.

## Reliance Orthodontics

### GoTo

Reliance has gone back to the drawing board to perfect the everyday "go-to" bonding adhesive with GoTo premium light-cured bracket paste. With GoTo, handling, bracket loading and flash cleanup are the differences between an everyday paste and one an orthodontist will be excited to use. Unique filler construction makes for single piece flash removal—"roping" off the tooth without breaking. GoTo is a premium paste without the premium price.

For more information, visit [relianceorthodontics.com](http://relianceorthodontics.com).

## Reliance Orthodontics

### ASK Kit

The All Surface Kit (ASK) is an all-inclusive product pack. ASK allows bonding to any unusual surface in the mouth with simplicity and success. No need to buy or stock metal primer, porcelain etch or plastic conditioner. Reorder costs for Assure Plus and Porcelain Conditioner is less than \$100 for 1,500 teeth. Detailed instructions for every surface are included to eliminate any guesswork or confusion. ASK includes one Etchmaster 4 Hole handpiece and tips, one Assure Plus and one porcelain conditioner.

For more information, visit [relianceorthodontics.com](http://relianceorthodontics.com).

## Reliance Orthodontics

### Assure Plus

With Assure Plus All Surface Bonding Resin it is now possible to bond to every intraoral surface with one primer. No more need to stock an assortment of special bonding conditioners. Assure Plus allows bonding directly to normal, atypical, wet or dry enamel, dentin and defective enamel, gold, amalgam, stainless steel, plastic and composite restorations, porcelains and even zirconia. Assure Plus is compatible with all light and chemical cure pastes. Simplify bonding procedures, reduce product inventory and increase bond strength with Assure Plus All Surface Bonding Resin.

For more information, call 800-323-4348 or visit [relianceorthodontics.com](http://relianceorthodontics.com).

## Ad Index

Our advertisers make it possible for us to bring Orthotown to you free of charge. Almost all of the advertisers provide telephone numbers in their advertisements for your convenience and fast response. Our advertisers want to hear from you.
