SURFACE DISINFECTANTS

Kerr: CaviCide Spray/CaviWipes

CaviCide is for use on hard nonporous surfaces, and is designed for cleaning and decontamination of environmental and medical device surfaces. CaviWipes contain convenient, durable, nonwoven, nonabrasive disposable towelettes saturated with CaviCide cleaner. The sturdy towelettes will not bunch up during use and offer superior surface contact and better fluid capacity than other competitive wipes.

OFFICE EQUIPMENT

3D PRINTERS

SprintRay: ProCure 2 3D Printer

The SprintRay ProCure 2 manipulates heat for efficient, controlled postcuring. Chamber scanning postcures all areas of the prosthetic. Instant heating targets 385 nm heat to specific parts and active heating keeps the interior of the device at an optimal temperature while the exterior remains cool to the touch.
