

ORTHODONTICS

ORTHODONTIC HAND INSTRUMENTS

HuFriedyGroup

Orthodontic instruments from HuFriedyGroup, led by the Clear Collection instruments for clear aligners, are forged from high-quality stainless steel. An optimal blend of chromium and carbon ensures instruments that resist corrosion, given proper use and care. They are hand-finished to a satin luster with a nonglare surface.

TEMPORARY ANCHORAGE DEVICE

Ormco: VectorTAS

The Vector Temporary Attachment System (VectorTAS) is a coordinated system of miniscrews, attachments and instruments designed to facilitate a wide range of orthodontic movements using simple mechanics without requiring external devices. After implantation, the screw may be attached to coil springs and crimpable posts, which provide the force vectors to move teeth. Information: ormco.com/products/vector-tas
