NEW PRODUCTS

Introduced between May 1, 2023, and April 30, 2024

NEW PRODUCTS: MATERIALS

KLOwen Orthodontics: KLOwen Custom Metal Self-Ligating Solution

KLOwen Orthodontics offers the only custom metal self-ligating bracket solution available today. With a precise digital setup, custom prescriptions, a patient-friendly design and enhanced control with tighter tolerances in the 19.5x26 slot, it optimizes treatment speed, comfort and outcomes in all three orders.

NEW
WINNER

CF's Take: Praiseworthy customized digital innovation with a more approachable price point compared to the others in its niche.

OFFICE EQUIPMENT

CURING LIGHTS: ORTHODONTIC LED

Ultradent Products, Inc.: VALO/VALO Cordless

The VALO Ortho curing light offers unmatched efficiency with a unique Xtra Power Quadrant mode that cures five teeth with the touch of a button. Its optimally collimated beam ensures even, reliable cures over brackets and the slim design provides unprecedented access. Rechargeable batteries enhance usability and convenience.

CF's Take: Valo remains the gold standard of all curing lights.

THERMOFORMING MACHINES

Great Lakes Dental Technologies: MiniSTAR S with Scan Technology

Achieves flawless adaptation by using positive pressure (60 psi) and forming the heated side of the material over the model. Reaches working temperature in one second. The bar code scanner automatically enters the correct processing information. Ideal for fabricating splints, night guards, mouthguards, bleaching trays, model duplication, matrices for oraries and invisible retainers.

**NEW
WINNER**

CF's Take: *Not all thermoforming machines are built the same and MiniSTAR lives up to the billing.*
