

ORTHODONTICS

BONDING: ADHESIVES

American Orthodontics: BracePaste Adhesive Family

BracePaste and BracePaste Color Change are medium-viscosity, light-cure adhesives for orthodontic brackets. They fluoresce under UV light, enhance bond strength and allow immediate wire tie-in. AO's comprehensive range of BracePaste bonding products, including MTP Primer, Fluoride Sealant and BracePaste Band & Build LC, ensures consistent performance and ease of use for orthodontic professionals.

NEW
WINNER

CF's Take: *I have heard nothing but good things about this adhesive and if I ever switch from the one I currently use, it will definitely be to BracePaste.*

ORTHODONTICS

DIGITAL INDIRECT BONDING

OrthoSelect: DIBS AI

The patented, award-winning DIBS AI software simplifies and automates the process of case setups, creates predictive outcomes based on any bracket prescription and delivers accurate and affordable 3D-printed IDB trays for precision bracket placement. These advancements free up valuable chair time by shortening bonding appointments and reducing overall treatment time.
