

## ORTHODONTICS

### ORTHODONTIC HAND INSTRUMENTS

#### Hu-Friedy

Hu-Friedy orthodontic instruments are forged from the highest-quality stainless steel, with an optimal blend of chromium and carbon. These elements ensure the creation of an outstanding instrument that resists corrosion given proper use and care. Each instrument is finished by hand to a satin luster; this nonglare surface keeps instruments looking beautiful.

### TEMPORARY ANCHORAGE DEVICE

#### Ormco: VectorTAS

The Vector Temporary Attachment System (VectorTAS) is a coordinated system of miniscrews, attachments and instruments designed to facilitate a wide range of orthodontic movements using simple mechanics without requiring external devices. After implantation, the screw may be attached to coil springs and crimpable posts, which provide the force vectors to move teeth. ## INFECTION CONTROL

### STERILIZERS

#### Midmark

Midmark sterilizers are safety simplified. From the fast M3 to the workhorse M11, they are highly effective and easy to use. Designed to meet the needs of any orthodontic practice, Midmark sterilizers set a standard for worry-free instrument processing.

### SURFACE DISINFECTANTS

#### Kerr: CaviCide Spray/CaviWipes

CaviWipes offer the convenience of surface disinfection, decontamination and cleaning in a single disposable product. CaviWipes are disposable towelettes presaturated with CaviCide, an intermediate-level disinfectant effective against viruses, bacteria, fungi and TB. The nonwoven towelettes are recommended for cleaning and disinfection of hard, nonporous exterior surfaces where cross-contamination is an issue.
