

# BOYD INDUSTRIES

## AWARD-WINNING OPERATORY EQUIPMENT

**“B**uilt to last. Built for you. Built by Boyd!” is more than a tagline; it signifies the commitment that everyone at Boyd Industries makes to every one of the company’s customers. Known for the durability and reliability of its award-winning products, Boyd combines more than 65 years of design and manufacturing expertise to create products that match orthodontists’ preferences. The company’s orthodontic operatory equipment is known for its high-quality standards, advanced technology and craftsmanship.

Boyd offers the widest range of standard operatory equipment, including seven distinct treatment and examination chairs, more than a dozen configurable chairside delivery units, eight operator stools, two examination lights and many accompanying accessories. When combined with the widest selection of upholstery, laminate and solid-surface colors in the industry, orthodontists are likely to find the combination of products that best fits their needs.

Boyd’s devotion to orthodontic operatory innovations and standards makes the company a

doctor’s top choice for office equipment, and its products are meticulously designed to maximize functionality and efficiency in unique workspaces. With Boyd’s proven reliability and ergonomic designs, orthodontists get the most out of their equipment today and for years to come!

### HIGHLIGHTS

- **Built to last.** Boyd orthodontic equipment is manufactured in the U.S. with the highest quality of materials to ensure the long-term reliability of its products.
- **Built for you.** The company prides itself on tailoring its operatory products to orthodontists’ unique spatial, aesthetic and functional requirements.
- **Built by Boyd.** Boyd’s sales and office design team helps orthodontists select the best solution for their needs and supports them from design and product selection to project completion and beyond.
