

BOYD INDUSTRIES

BUILT TO LAST DENTAL PRODUCTS

“Built to last. Built for you. Built by Boyd!” is more than a tagline; it signifies the commitment that everyone at Boyd makes to every one of the company’s customers. Known for the durability and reliability of its award-winning products, Boyd combines more than 65 years of design and manufacturing expertise to create customizable products to match orthodontists’ preferences. The company’s orthodontic operator equipment is known for its high-quality standards, advanced technology and aesthetic craftsmanship.

Boyd’s devotion to operator innovations and improvements makes the company a doctor’s top choice for customizable office equipment. Boyd’s design team maximizes efficiency and minimizes cost with endless customizable options, making a perfect space both attainable and affordable. With Boyd’s proven reliability and ergonomic designs, clinicians get the most out of their equipment.

Boyd builds a range of standard equipment from patient chairs, physician stools and delivery units to custom cabinetry—all built to deliver

maximum functionality and efficiency in unique workspaces. These blend seamlessly into any office design, with a nearly limitless selection of colors and textures designed to withstand aggressive use.

HIGHLIGHTS

- **Built to last.** Boyd orthodontic equipment is manufactured in the U.S. with the highest quality of materials to ensure the long-term reliability of its products.
- **Built for you.** The company prides itself on tailoring its operator products to orthodontists’ unique spatial, aesthetic and functional requirements.
- **Built by Boyd.** Boyd’s sales and office design team helps orthodontists select the best solution for their needs and supports them from design and product selection to project completion and beyond.
