

KLOWEN ORTHODONTICS

CUSTOM DONE RIGHT

The KLOWen Custom Digital Solution sets a new benchmark in fixed appliance treatment with the industry's only fully custom metal self-ligating (SL) bracket. Combined with the patented IDB system and 100% custom prescription, it delivers precise control along with shorter and fewer doctor-intensive appointments. Designed for comfort and efficiency, each custom bracket features gingival offset, soft-touch corners and a gingivally-opening door to simplify workflows. With low-friction, non-fatiguing ligation and full-size wire control, it optimizes all three orders of movement. From planning to bonding, KLOWen provides one seamless, digital workflow—bringing aligner-level simplicity to brackets.

For more information, visit klowenortho.com.

HIGHLIGHTS

- **Custom metal SL bracket:** The only fully custom self-ligating bracket available, designed for low friction, faster alignment and precise control—delivering shorter appointments and optimized movement in all three orders.
- **Patented IDB system:** Seamlessly integrates with the KLOWen 100% custom prescription to ensure optimal bracket placement, minimize chair time and provide a streamlined, digital workflow from start to finish.
